

Candidate Statements

Anthony Kolios (Business Department): It is almost thirty years since I joined Queensborough as faculty of the Business Department in the CIS Program and from the very beginning I served in governance in one capacity or another. Senate committees, Computer Resources, Curriculum Committee, Academic Senate, Faculty Executive Committee and more. A few years ago I decided to step back and “free some space” for the younger colleagues. I am asking you again now for your trust and vote because the college will face soon unprecedented circumstances and an old voice aware of the institutional memory, independent and experienced may help us navigate these upcoming uncharted waters.
